

LET'S BUILD A BRIGHTER ECONOMIC FUTURE.

Repower America Now With Clean Energy.

Investing in a clean energy economy is the best way to energize America. Manufacturing wind turbines, solar panels, and green buildings will not only create millions of good-paying jobs, it will help lower our energy bills and fight global warming. By Repowering America with cleaner fuels and cars, we'll cut our dependence on foreign oil. But we need to act quickly. The American economy and the American family can't wait any longer.
